**Description:** NewLoop Energy is a dedicated provider of clean, reliable Capstone Microturbine Systems in Northeast Illinois and Southeast Wisconsin. We provide custom economic analysis, including payback and IRR figures, as well as determine emission reductions for our clients pro bono as part of our Initial Viability Analysis. NewLoop is a design, installation, commission, and service firm that offers turnkey solutions in natural gas CHP & CCHP systems and biogas microturbine systems. Our clients include large industrial facilities using steam, midsize hotels using hot water, and waste water treatment plants using exhaust heat for the anaerobic digestion process.
