

MIDWEST COGENERATION ASSOCIATION

Invites you to attend the NINETEENTH ANNUAL POWER CONFERENCE

Thursday, September 15, 2005

**McDonald's University - McDonald's Campus
Ronald Lane
Oak Brook, Illinois**

WELCOME

The MCA Board of Directors invites you to join us for the 19th Annual Non-Utility Power Conference in Oak Brook, Illinois. We believe our slate of presenters in both tracks of the conference will challenge us with new ideas. There will be ample time allotted to visit with the many cogeneration related exhibitors present. We will end the day with refreshments and a barbecue dinner where you will have the opportunity to network and discuss ideas learned throughout the day.

If you have joined us in the past you know what an exciting conference this is. If you've never joined us, make this the year! The conference, while running in two tracks, begins with everyone attending the opening comments and presentation by our keynote speaker:

***Mr. Thomas R. Casten
Chairman and CEO
Primary Energy Holdings, LLC***

Following the keynote address you have the choice of attending the sessions in Track 1 or 2 throughout the day. We will all meet up again for lunch and again at the end of the day for the barbecue dinner.

Please note that while this conference is again being held at McDonald's Campus, we will again be in the University Building, not the Lodge. Please see the map on the back of this brochure for exact location. For information on exhibiting, contact Robert Conway at (630) 834-6000 or Robin Pelsis at (630) 323-7909.

Attendees of the conference will be awarded a PDH certificate for 6.5 hours upon request.

Visit the MCA at www.cogeneration.org for additional information
